REUNION OF CLASS OF '45

Outstanding among the week-end social events was the reunion party and banquet of the Statesboro High School class of 1945. The large dining room was attractively decorated in class colors of pink and white. Pink and white garden flowers and pink and white tapers in silver holders, arranged with garlands of ivy, were used on the long banquet table and the lovely place cards were pink with the names of the guests written in white ink. Over the entrance to the dining room was a large decorative "Welcome" sign. The attractive decorations were done by June Attaway, Helen Johnson Lettice, Bill Olliff and James Donaldson. Mothers of the class furnished the flowers. A four-course turkey dinner was served. Bill Olliff, president of the class of '45, welcomed the guests. The class prophecy was read by Helen Johnson Lettice, and at the roll call each member gave a brief resume of their activities during the past five years. Short talks were given by Miss Mary Lou Carmichael, Mrs. D. L. Deal and Mr. and Mrs. Leodel Coleman. Mr. and Mrs. S. ..Between Us..

RUTH BEAVER

MISS GENEVIEVE GUARDIA.
Guest Writer for this issue.

When Mrs. Beaver asked a high school girl to write her column, that senior felt greatly honored. "Just anything you want to write about," What could "anything" be except commment—The Class of 1950—To bigger things and more thrilling experiences! Now that the long-awaited time has come, we realize with a sense of shock and surprise that we don't want to leave S.H.S. and go on to college. We hate to say farewell to our school and to each other. What a good time we have had! What good friends we have been! What fine teachers, who have guided us and sponsored our activities! We didn't know how lucky we were until now. All of us have shed a few tears, or at least grown misty-eyed, at the several commencement exercises, and loved each other better for our tears. But now the year of high school is behind us and we are making plans for a summer of enjoyment before going to work or to college in the fall.

We are all displaying the many gifts that have come to us from relatives and friends. Have you ever thought how much easier it is to give a gift for a girl than for a boy? But both boys and girls are proudly showing gifts. Among these are a car, several diamond rings, silver in class patterns, luggage, watches, jewelry, alarm clocks to call us our days of work and study at college. Oh, I could never name them all, for the class of 1950 is very lucky!

We wish to thank our friends for the enthusiastic praise we have had on our class night. "The Best S.H.S. has ever put on," some have said. We wish to express our thanks, too, for the many favorable comments we have had on the 1950 Criticism. There is an interesting story connected with the arrival of the annuals. Early Friday morning two members of the staff journeyed to Dover expecting to get them there, but no Criticisms. We all were feeling pretty dejected until we saw the books came by Benton Express—right in the middle of the Honors Day program at S.H.S. Somehow, the word was whispered among the seniors seated in the auditorium, that Mr. Sherman had to "stop the music" while the whole class knelt and sang, "The annuals are here!" Mr. Sherman called for one of the books to be brought forward, and it was a proud and happy editor-in-chief who presented the first Criticism to him on the new S.H.S. stage.

But if the Criticisms are a success, see what a theme we had to work on: Our Favorite Town! We all deeply love Statesboro with its "dear hearts and gentle people," and we, as future citizens, pledge ourselves to try to keep it the best town of its size in Georgia.

You'll be seeing us in the next issue.

PUBLIC EDUCATION SURE TO EXPAND

Soon Reach Kindergarten, Then Only Brief Step To Take in Cradle Program

Public education in Georgia will be expanded to include the kindergarten in the next ten years, and the nursery school in twenty years, William Henry Shaw, superintendent of schools at Columbus, predicted in the baccalaureate address at Georgia Teachers College Monday.

"Education is growing upward to include 12th-grade high schools and community junior colleges," he said, "and will grow downward also to include kindergartens and nursery schools which will take care of children during their most impressionable years."

Graduates were urged in a commencement sermon Sunday by Bishop Arthur J. Moore, of the Atlanta area of the Methodist church, to build their lives on intangible things, "to walk not like fools, but as wise men."

The class of 115 was the largest first or August group since degrees first were awarded here in 1929. It includes fifty-eight who were members of the local school system, and a final meeting of the local G.E.A. County School Superintendent H. P. Womack and Miss Maude White, visiting teachers of Bullock county, arranged the entire week's post-planning activities. Thursday's program opened with a general session in the auditorium with Mr. Womack presiding. Rev. T. L. Harner, pastor of Statesboro Presbyterian church, led a timely devotional.

During the morning session the teachers were divided into five groups as follows:
Group I—Understanding Children, Miss Maude White, visiting teacher, Bullock county; Miss Paula Frank, Savannah; Miss Mylena Solesky, Dr. S. H. Henderson, principal, Teachers College; J. C. Milligan, chief probate officer, Savannah; Juvenile Court, Dr. George Watson, associate professor of education, Teachers College.

Group II—Health (all grades), John C. Adams

So doing, he has gained the friendship of thousands upon thousands of citizens in this county and in every other county in the state.

As Comptroller-General, he has given the state economical and efficient service from this important office.

As Insurance Commissioner, he has been responsible for reduction in rates of almost every conceivable type of insurance. Particularly is this true in automobile, fire and farm insurance.

As Commissioner of Georgia's Safety Fire Office, he has worked with remarkable success in protecting the lives and property of our citizens, and in seeing that schools, hospitals, apartments, office buildings, etc., to conform to the highest safety standards.

As a member of the Teachers' Retirement Board, he has fought diligently to increase retirement benefits for our teachers.

As a commissioner of the Georgia Peace Officers' Annuity Fund he has cooperated fully in the effort to aid the forces of law and order in this state.

For the above reasons, and because of the fact that his personal integrity is without blemish, the people of this county will vote overwhelmingly on June 28th for the re-election of Zack D. Cravey.

"I Do"

IT MAY HAVE BEEN but a decade ago, or it may have been far back in the "Twenties" . . . but sometime, somewhere, a young man stood in the soft light of a June morning and repeated the words—"I do."

Since that time, he has fought—without interruption—for the place in the world he wants his family to occupy.

And it well may be that, out of the struggle, he has lost just a bit of the sentiment that used to abide in his heart—for success is a jealous master and exacts great servitude.

But not when the Juneteenth comes—and, with it, that anniversary of another June!

Then the work-a-day world, with its many tasks, is cast

abruptly aside; and sentiment—pure and simple—rules in his heart once more.

And, because there are so many thousands of him, doorbells are ringing this June throughout America . . . and smiling boys in uniform stand, hats in hand, to deliver the proofs of remembrance. And along with the beautiful flowers, and the boxes of candy, and the countless other gifts, some of those brides of other Junes will receive the titles to new Cadillacs.

And, for them, there will be no other June like this—save one alone.

As your Cadillac dealer in this community—we've had long practice in the art of keeping secrets. Why not come see us today? You can trust us not to tell!

BULLOCH TIMES

AND
THE STATESBORO NEWS
D. B. TURNER, Editor-Owner.
SUBSCRIPTION \$2.00 PER YEAR

Entered as second-class matter March 23, 1905, at the postoffice at Statesboro, Ga., under the Act of Congress of March 3, 1879.

The Tax On Thrift

IF ALL PERSONAL incomes in excess of \$10,000 a year were confiscated by Uncle Sam, it would barely give him the additional money needed to wipe out the \$5 1/2 billion deficit and finance the \$1 billion first year's cost of the new federal spending programs proposed in the 1951 budget.

Thus since the nation faces a choice of submitting to higher taxes or reducing federal spending if Uncle Sam is to live within his income, the Council of State Chambers of Commerce recently pointed up some of the difficulties in increasing federal revenues.

This study revealed, for instance, that if the Federal Government set \$50,000 as the maximum income that could be retained by individuals, and took outright all income above \$50,000, it would get only about \$643 million more than it gets now from present taxes on those incomes. This \$643 million more would be enough to run the Federal Government only one week.

Or suppose Uncle same fixed \$25,000 the maximum income that could be retained by individuals, and took everything made above that figure. That would give a little over \$2 billion in additional revenue. This is just a little less than the Governmental activities and subsidies alone in 1951.

The survey showed that, in spite of the high taxes on incomes of \$100,000 and over, Uncle Sam collected only \$1.2 billion from the 10,844 persons with such incomes in 1947, which is the latest year for which complete statistics are available. This total was only 6 1/2 per cent of all income taxes paid that year. Tax rates on incomes over \$100,000 that year ranged from 67 per cent to as high as 91 per cent.

On the other hand, 51 million taxpayers reporting incomes of less than \$5,000 in 1947 paid \$5 1/2 billion, which is 48 per cent, or almost half of the income taxes collected that year.

The Council said, "There is no getting around the fact that any additional burden of taxes must fall on the lower income groups. They have only two choices—submit to more taxes or demand cuts in present spending with a halt to new spending."

"A New Improved Method of Tobacco Curing!"

HERE'S WHAT Airovac MEANS TO A TOBACCO FARMER

Assures HIGHER PRICE Per Pound:

By setting and maintaining a uniform lemon color in all types of tobacco, even in the tips.

UNIFORM CONTROL Assures GOLDEN CURE:

Preserves quality of good leaf; improves grade of bad.

ELIMINATES SWEATING and SPONGING:

By scientific control of the air circulation, when and as needed, even during unfavorable weather conditions.

HOW DOES AIROVAC WORK?

AIROVAC offers the only scientific way of bringing tobacco to its best color and quality. To obtain this result, there are two units which control the circulation of heat and air, under the many varying conditions of weather and tobacco when harvested. By definite control of the air which circulates up through the tobacco leaves, curing can be scientifically conducted, without guessing or any of the old hit or miss methods of the past. NOTE cut away section below showing how air is taken in, circulated and expelled:

REDUCES CURING and ORDERING TIME:

Because tobacco dries faster and absorbs moisture quicker when the air circulation is speeded up.

CURES MORE TOBACCO Per Barn:

Because AIROVAC'S forced circulation of the air permits closer hanging of tobacco in the barn.

IMPROVES Working Conditions:

By providing forced circulation of air in the barn, during hanging and taking out of tobacco.

fically conducted, without guessing or any of the old hit or miss methods of the past. NOTE cut away section below showing how air is taken in, circulated and expelled:

AIROVAC PRODUCES AMAZING RESULTS!

The AIROVAC method of curing is today tried, tested and proven by many of this State's most successful tobacco farmers—ask your county agent or let us furnish you with actual performance records on barns where AIROVAC units are in operation. Call, write or come in today for detailed information.
